

AGRICULTURAL DAMAGE PERMITS - GOOSE 2004

Canada Goose Tagging Requirement

Collins and Horicon Zones

When a Canada goose is killed and *before it is carried by Hand or transported in any manner by any person*, the hunter who killed the goose must:

- Validate the carcass tag by tearing or cutting out notches on the carcass tag. This designates the month, day and time of kill. Failure to follow this validation process invalidates the carcass tag.
- Completely attach the tag (utilizing its own adhesive) to the neck or leg of the Canada goose.

Canada Goose Transportation Restrictions

Collins and Horicon Zones

- You may only transport Canada geese in a motor vehicle in such a manner that the tag attached to the Canada goose cannot be handled by any occupant of the vehicle.
- You must keep the tag attached to the Canada goose until it reaches your home.

Special Horicon Zone Restriction

You may not hunt waterfowl from any road or railroad including their respective rights-of-way. *Note: Railroad rights-of-way are private property and trespass is prohibited unless permission is granted by the owner.*
